

Join Us in N4C

Lyrics for the song

(Verse 1)

In the upper Midwest, where the landscapes gently roll,
The N4C Camera Club Council, a haven for the soul
Of photographers united, a vibrant, diverse crew,
From seasoned pros to beginners, with perspectives fresh and new.

(Chorus)

Names become faces, and faces become friends, a bond that's strong and true,
Through lenses we see beauty, in all that we pursue.
Learning, sharing, growing, with each click and every frame,
Inspiring one another, in this photographic game.

(Verse 2)

We express ourselves uniquely, through the cameras in our hand,
Capturing precious memories, across the fertile land.
We improve each cherished photo, with techniques both old and new,
Embracing new technology, in all that we can do.

(Chorus)

Names become faces, and faces become friends, a bond that's strong and true,
Through lenses we see beauty, in all that we pursue.
Learning, sharing, growing, with each click and every frame,
Inspiring one another, in this photographic game.

(Bridge)

With passion and with patience, our skills we elevate,
Exploring new horizons, where creativity awaits.
To push our boundaries further, to see with fresh new eyes,
Beneath the vast and endless, ever-changing prairie skies.

(Chorus)

Names become faces, and faces become friends, a bond that's strong and true,
Through lenses we see beauty, in all that we pursue.
Learning, sharing, growing, with each click and every frame,
Inspiring one another, in this photographic game.

(Outro)

So let us make this year memorable, with growth and joy and grace,
Expanding our camera clubs, in this very special place.
Where every shutter opens, to stories yet untold,
And friendships bloom in photographs, a future to behold.
